STD/STI Testing

Many sexually transmitted diseases and infections have no initial symptoms, but may have life-altering consequences. Anyone who is sexually active should get tested. Our testing services are free except for certain tests that require a small lab fee that is passed on to the patient. Please call for an appointment and/or more information.

Care Net Of Missoula

Care Net provides no cost pregnancy support services, STD/STI Testing*, material resources, healthy choice education, and emotional support. We never profit from a pregnancy decision.

Who We Are

Care Net of Missoula is committed to providing services to women, men, and families with pregnancy and sexual health needs by providing educational, emotional, and material support. All assistance is offered free-of-charge* regardless of personal history or religious beliefs. We provide compassionate, non-judgmental care with the utmost level of confidentiality. We never profit from a pregnancy decision.

Support After Abortion

Support After Abortion is a recovery support group designed to bring healing to women who have been hurt by abortion. Participants engage in a recovery program and connect with women who understand and can help.

Free* and Confidential

- Pregnancy Testing
- Limited OB Ultrasounds
- STD/STI Testing
- Maternity, Baby & Toddler Items
- Life Steps
- Healthy Relationship Education
- Parenting Support & Mentoring
- Positive Alternatives to Abortion
- Referrals for:
 - Post-Abortion Healing Support
 - Medical Assistance
 - Financial & Material Assistance
 - Counseling Services
 - Adoption Services
 - Legal Counsel & More

*Care Net Services are FREE and CONFIDENTIAL; however, certain STD/STI tests carry a low lab fee.

Life Steps

Life Steps provides a supportive and confidential environment in which men and women can learn about pregnancy and prepare for parenthood.

A trained mentor will lead those in the Life Steps program through evidence based video lessons that are sent through text messages. The mentor will meet with Life Steps participants weekly via video chat (or in person) and discuss the lesson, with the mentor providing support and encouragement throughout the pregnancy and up to the baby's 1st birthday.

Participants earn points to spend in our Baby Boutique on new baby items.
